

Toronto
April 16th 1887

My Dear Sir William

Mr Hamilton Mac Carthy,
a sculptor of great ability, who
has executed some excellent
busts here, asked me for
an introduction on his
visit to Montreal. He
is now engaged on a
colossal statue of Dr Ryerson
under the auspices of the
Educational Department,
If you will kindly give
Mr Mac Carthy a note

that will give him access
to some of the galleries
of your wealthy and
liberal patrons of art.
I shall greatly thank you

You are now struggling
to get justice done you by
the Quebec parliament, as
I see from the press. I
cordially wish you success;
though I much fear that
Rome and the priests are
going to prove too much for
you in the province of
Quebec. I can sympathize
with you in your parliamen-

- very conciliatory, for I have
had a fortnight of lobbying
and worrying over our
University Confederation
bill. The Minister of
Education has behaved
very fairly by me; but for
all that I have had a
weary some amount of
anxiety and worry.

You will find some not
very comprehensible features
in the bill; insisted in to
satisfy the jealousies of
our Methodist friends;
but I think we can work
on the lines of the new bill
without difficulty.

Yours faithfully
Dan. Wilson
