

Chas. M. Squel
May 5/87

May 5/87

Dear Mr Squel

Dr Heneker and
I had a long interview
last evening with Dr
Howard Dr^{Mr} Campbell
and Dr Redebek and
discussed the whole
position in so far as
the Col of Physicians
is concerned. They quite

understand our powers
and are with us; but
anticipate much
difficulty at the
meeting of the
Council on the
11th. They are pre-
pared however to
argue the matter
and to protest against
any innovations.

Dr Howard suggested that
as one agreement is
the rights of the
Professors to regulate
the extent of require-
ment required for
entrance in study it
would be well to
state explicitly either
in the bill or
therein that ~~but~~
Each Professor might

Settle the extent of
a requirement in the
the course of study of
each nationality. We
pay for entrance and
instruct the examiners
to that effect. Thus
I think legitimate
and it might take
some of the ground for
objections.
