July 2, 1887

Dear Mr Van Home,

I was glad to hear  
yesterday of some proposals  
~~that Mr Peterson~~ to re-arrange  
the work of your  
engineering office, in  
the sense of giving  
to the bridge work  
now being done by  
my son a more  
definite position.  
This I know he

has been most  
anxious to secure,  
and I feel sure  
that he will  
make it work  
in the interest of  
the Company, as  
he is very zealous  
and enthusiastic in  
his love of bridge  
designing; though  
of course quite willing

to attend to any  
other matters that  
may turn up.

I beg to thank  
you for your kind  
interest in him and  
for thinking of this  
improvement.

I should have  
congratulated you ~~on~~  
Mrs. Van Home's suc-  
cess in her botanical

work, I hope she  
will be able to  
pursue the study  
still farther.

The new volume  
of the Transactions of the  
A.S. will be sent to  
you, and I should  
be very glad if at  
any time you can  
contribute a paper  
to Section IV.

Truly yours  
M. Dawson
