Dear Sir William,

Your letter ex-  
pressing your kind  
feeling towards me  
much gratified me,  
would it be asking too  
much, to write me a  
testimonial, at your  
leisure, it would be  
very useful to me in

England or wherever  
I might be Teaching as  
Your name is so well  
Known.

You kindly said  
You would interest  
yourself about my  
room & I should be so  
very much obliged if  
you use your influence  
on my behalf as the

Small room allotted  
me by Mr. Drummond  
is not only not large  
enough for my things  
but being next to the  
class rooms I could  
never retire there for  
quiet during the day;  
if I could have the  
dormitory on the  
same flat I would  
give it up when required

for extra pupils & feel  
gratified that this con-  
cession were made me  
in consideration of my  
work here & that I have  
influenced more than  
half of the number of pupils  
in coming here, some being  
former pupils & friends of  
mine. I trust you will pardon  
my troubling you, but you will  
understand this chiefly affects  
my comfort & happiness here. I am  
with compliments. Yours very faithfully  
M. E. Wallan -
