

# De Pauw University.

ALEXANDER MARTIN, D.D., LL.D., PRESIDENT.

Greencastle, Ind. Feb'y 14, 1888.

Principal Dawson  
Montreal, Canada:

Sir & Bro.

As it happens the subject of Darwinism, Evolution &c is attracting more than usual attention just now in our Halls and through these Western States. Of course the writings of Darwin, Spencer &c are mainly sought by those who favor such views.

I find the works on the enclosed Slip in our Library. May I respectfully ask you the Titles & publishers (if convenient) of two or three more of the best authorities on the same side? Have you published anything yourself in this line of study? I think I saw some years ago your name as an authority on the right side but it was when I was absorbed in other matters & so failed to give it the attention I should have done. This is my apology for troubling you now. I send a copy of our "Triennial Year-Book"

An early answer will oblige.

Fraternally yours  
Alexander Martin.

Albion  
July/88

"Science of Thought", by Max Muller  
Pub. by Charles Scribner Sons, N.Y.

"Creation or Evolution" G. W. Curtis  
Harper & Bros.  
N.Y.
