Sir W. Dawson, L.L.D.

Montreal Canada

Thanks for yours of 18<sup>th</sup> inst. I had strangely overlooked your book on "The Story of the Earth". I procured a copy as soon as it came out & read it with great interest. It is still in my library. I shall take care to secure an early copy of that which you now have in press.

It may interest you to know your humble servant is a native of North Britain - has been Prof. of Greek &c over 10 years in Allegheny College (Western Pa.) - <sup>for 8 yrs. as Prof.</sup> ~~Founded~~ under direction of the Legislature, the "University of West Virginia", & has been here now about 14 years in which time an Institution, by the blessing of God & the help of good men & women, has grown wonderfully.

Respectfully yours

A. D. Martin.
