JAMES D. & E. S. DANA, PROPRIETORS.

New Haven, Ct., May 9 1888

Dear Mr Dawson

I send you with pleasure  
a copy of my paper of 1885  
and also my reply to Mr  
Drum. I ought to have sent  
the former long since.

It is a satisfaction  
to me to have the Taconic  
question laid to rest.

Walcott's paper has finally  
made a general submission  
to the view of the Lower Sil +  
Cambrian ages of the Taconic  
Rocks. Finding fossils in the  
limestone at Williamstown and in  
Brimington at the base of Mt  
Anthony, and also in the  
Brimington quartzite ~~the latter~~

no doubtless here -

When my <sup>Hawaiian</sup>  
memoir is ended I will  
send you a copy of it.

Truly yours  
James W. Dana
