

HARPER & BROTHERS.

FRANKLIN SQUARE, NEW YORK.

June 22, 1888.

Dear Sir:

Your note of the 15th inst.
was duly received, & in accordance
with your request a statement of
account has been prepared. This,
accompanied by a cheque in set-
tlement, is sent you by to-day's mail.

We are engaged with Mr.
Hodder, last summer for a set
of plates of your forthcoming work
"Modern Science in Bible Lands," which
he then thought would be ready
within a few months. We have

heard nothing further in reference
to the book, nor have we seen
any advertisement or notice of its
publication. Doubtless our set of
plates will come to us in due
course.

We might add
that the price we arranged to pay
for the plates included payment in full
to the author on account of your
edition. This was Mr. Hodder's
proposal.

Not long after we
published the new edition of your

"Story of the Earth & Man", J. B. Alden,
in this city, priced an edition for
forty cents. We enclose his ad-
vertisement of the book.

We are, dear sir,

Very truly yours

Hayes & Brothers,
per J. T. P.

Sir J. W. Dawson, LL.D.,
P. P. P.
