

Huddleston

June 88

Cottlands Park, Weybridge

24 June 1888

Dear Sir William Dawson,  
Pray accept my best  
thanks for your very  
interesting book "Mo-  
-dern Science in Bible  
Lands". I feel sure  
that if ever it should  
be my lot to travel in  
those countries I could

wish for no better com-  
panion and guide  
than this excellent  
volume. I have been  
much interested in some  
of your objections to the  
generalizations of the report  
on the Nile basin, &  
I hope to go into the question  
a little some day if  
I have time. I presume  
that Judd is responsible  
for most of these -

Believe me to remain  
dear Sir  
Wm Dawson, Secy City  
Wm H. Hensley
