

Redpath Museum.

Montreal July 27/88.

Dear Sir William,

Your two Notes  
to hand. I shall have the Lists  
ready in time.

Mr Ulrich's List  
& Duplicates are all right, no 8  
excepted. it is a thin, flat Coral,  
showing nothing but the Cell apertures,  
the Cells very close together, perhaps  
you had better see the Specimen again  
before sending it to Kentucky.

I am enjoying good  
health, the Hot-air Baths have  
cured the attack of Bronchitis

Trusting you are all well  
I remain, Dear Sir,

Yours truly  
J. H. Curry
