P. Q.*

From the ^aNew York Herald's
July 2nd 1888

PANAMA, July 16, 1888.—Ancient human footprints
have been found in volcanic rock in Nicaragua. The
prints are described as being $9\frac{1}{2}$ inches long, 3
inches wide at the heel and $4\frac{1}{2}$ inches at the toe.
The apparent length of the boot itself is 8 inches.
