Professor James Dawson

Dear Sir

Concerning the  
new cuts made here  
for the "Geological History  
of Plants" Mr. Appleton  
asks me to say that  
his firm is quite willing  
to furnish electros for  
the use you propose, if  
Messrs Paul Yarnch & Co of London  
who paid half the cost of  
the originals do not object.  
I will write them at once  
about it and let you  
know the result on receipt  
of their reply.

Yours truly

W. J. Youmans
