I wrote to H. Carpenter on receipt of
your letter, expressing my regret that I
did not see how we could get ~~the~~ ^{any good}
series of photographs engraved nor a
good memoir to explain them. It is just
possible that the already published descriptions
of the organic portion might be sorted
out & printed, - but I cannot find time
for direct work - even if more can be done.
H. is coming to see me & to talk over the
matter soon - Myherborn has prepared
a really good & perfect bibliography of the
subject, with some notes on the more important
of the papers & books. I wish you had thought
it convenient to use his Bibliographic list -
but you had a special classification in view, to
that's settled.

I will write again when I shall have
seen H. Carpenter - I trust that the

pamphlets (such as they are) which
I have sent you have reached
Montreal & been accepted. -

Please to offer my Best
Regards to your Family

& Believe me

Yours very Truly
