Dear Sir William Dawson

I send you herewith a Statement of Sales & of the different works up to Feb 1st. Last. Out of these there is a balance due to you of £39. 6. 0, which we shall be happy to forward by draft, or I will hand it to you when I may have the pleasure of seeing you in the summer. "Fossil Men" having been reprinted, the present account shows a slight loss, which no doubt by this time is covered; and "Modern Science" shows a balance

on the wrong side of L 96. 8. 9,
but this has since been
considerably reduced, as we
have sold about 300 Copies
since Midsummer

I forwarded to Oxford your reply
to the review in the Oxford Herald

With best New Year's Wishes

Believe me

Your Sincerely

M. A. Hodder
