

Hotel Mitchell, Mt. Auburn
Cincinnati O. Feb 12 1859

Sir J. W Dawson - L.H.D.

Dear Sir; -

I venture to send
you a copy of the 4th vol. of Bulletin
of Denison University containing some
geological matter. Most of the learned
societies of the world have been so
kind as to put the laboratories of
Denison University on their exchange
list. Recognizing of course that the
work published by us is vastly inferior
to the portly and plethoric tomes of
your society - (The Royal Society) I
still hope that consideration for the
effort we are making may induce
you to accept our proposition of
exchange of publications -

Cincinnati, O. Feb 12 1871
Hotel Mitchell, Mr. Babson

Sir J. W. Babson Esq.

Dear Sir,

I venture to send
you a copy of the 4th vol of Bulletin
of Business University containing some
Psychical matter. Most of the names
societies of the world have been as
kind as to put the laboratories of
Business University on their exchange
list. Reciprocating of course that the
work published by us is made known
to the party and pleasure taken of
your society (the Royal Society) I
still hope that consideration for the
effort we are making may induce
you to accept our proposition of
exchange of publications.

My own work has of late been chiefly
in the determination of the several
horizons grouped heterogeneously
under the term "Waverly of Ohio"

& you will not be surprised to
learn that the result has been
to completely destroy the significance
of that term since it covers repre-
sentations of all the strata from the
Chemung to the Chester i.e.

- (1) Ohio equivalent of Chemung (2) Kinderhook
(3) Burlington (4) Keokuk.

Very respectfully yours

C. L. Herrick

C. A. Bennett
