

Sant Caspale

THE SCHOOL OF
Electrical Engineering & Submarine Telegraphy,
12, Princes St., Hanover Square,
London, W.

May 15, 1889

My dear Sir

May I introduce to you Mr E. C. Rimmington, a valued member of my staff here, who, after some years of work, has been ordered a long holiday & voyage.

He would be much interested in seeing your University arrangements. I should like him to see my Uncle's collection.

I may be in Canada myself
this year - having been much
pressed to take the headship
of a Commission sent out
by the New England Company
of London, to our Stations
among the Indians at Chemung,
Brantford, & Kuper Island
(Brit. Columbia) - where we
spend about \$15,000 per year.

With kind regards to Lady
Dawson, believe me,

Faithfully Yours

W^m Lunt Carpenter.

Sir W^m Dawson.
