

96 Crescent Street

Montreal June 11th 89

Dear Sir William

It is with much pleasure
I accede to the request for a specimen
of "Blastoidoceras" for the University
Museum - I regret that through careless
wrapping my collection was much damaged
and the specimen I send herewith I fear
will not meet your expectations - if however
these fossils are uncommon and you wish
for better examples, it would give me
great pleasure to visit Isle Bizard on a
special search

Very Sincerely

Horace T. Martin
