Dear Sir

I have to thank you sincerely for the copy of the Textbook of Canadian Geology which you so kindly sent me. I have not had time to examine it as yet - but I hope to find much that will be of interest - to me. My knowledge of the localities in Canada where special geological phenomena are found is rather meagre and I sometimes find that in my lectures I draw my illustrations from distant countries while we have in Canada some very excellent examples.

Again thanking you

I am Sir

Yours truly
John Waddell

Sir G. W. Dawson
