Dear Mr. Main

The proof you were
good enough to send me
on Saturday found it true
and further notes numbered
from 1 to 8 gave gas marks as
you find them some of the
observations I made at the
meeting on Thursday. I am
particularly desirous that
No 2 should be added and I

hope with your intimate
knowledge how best to deal
with such matters you will
be able also to find place
for the other paragraphs in
the report. It is most
kind of you to take so much
trouble about this and I am
greatly indebted to you for doing
so. The "proof" would have
come before earlier had not my
business engagements kept me
so full of occupation. They are
over now yours
Edwardes
