Montreal.

18th June
1874

Dear Mr. Thain

I am glad the skeleton
found at the museum
is found to be complete and
that Mr. Barry thinks he may
also be able to use the skin
in getting up a stuffed specimen.
Business engagements are
pressing very heavily upon
me at present and I fear

It may not be possible for
me to call on you tomorrow
but I shall hope to find time
for some conversation with
you before leaving on
Tuesday afternoon.

Believe me
very truly yours
Edward Everett

As the Stillborn Boy is No 3
and 4 sent to the Museum is that
of a female I have no doubt has
one forwarded to England as
a Stillborn Boy is No 1 & 2 in
that of the male, Mr. Key
