Montreal.

Nov 25/89

Dear Dr Bourneot,

I proposed some
time ago my friend
Dr Wesley Miller (a very
able and rising
physiologist, who has
just published a
valuable text-book)
as a member of the
R. S. Does the
nomenclature still

start, or must
it be renewed, and
if so what steps
are to be taken.

With all kind
regards,
Yours sincerely

Dear W
J. M. Dawson

I shall send notification
in a few days of vacancies
in two sections, which
will give you all the
information you require
Very Respectfully
W. Rowland
