*[Faint, illegible handwriting covering the majority of the page, likely bleed-through from the reverse side.]*

My Dear Sir:

I heard your address yesterday afternoon with a great deal of pleasure - Its recollections this morning seem as if I had heard a nice piece of music - it was soft smooth - gentle, yet forcible, and round; As I said to my son on the way home - there was not one word said you would want to recall - It is to be hoped you will be long spared to the College - and with a Chancellor of such wealth & energy, the College Institution, must naturally advance - My main object in writing you this time, is to ask if you can secure me the original MS of Sir Donald's address - that I may insert in that McGill Book of mine

Yours truly  
Joseph
