DEPARTMENT OF THE INTERIOR
UNITED STATES GEOLOGICAL SURVEY

WASHINGTON, D. C., February 13, 1890.

Sir J. William Dawson,
Montreal, Canada.

My dear Sir:

In reviewing the literature pertaining to Acadian geology, I have been unable to find a copy of your supplementary chapter to the first edition of your Acadian Geology, 1855. It was reviewed by Billings (Canadian Naturalist, vol. 5, pp. 450-455), and I believe it was published in 1860. Can you tell me where it will be possible to obtain a copy of this chapter? I would like to get two copies, as I desire one for my own use and the other for the Geological Survey library.

As I review the work that has been done in Acadia, I realize the vast amount of ^{good & thorough} work that you have done in that region.

If you will inform me where we can obtain copies of the missing chapter, you will greatly oblige,

Truly yours,

Charles Walcott,
