PROLOGICAL & NATURAL HISTORY SURVEY

NUMBER TWO ORDER OF THE GENERAL OFFICE

1880

[Faint, illegible handwritten text, likely bleed-through from the reverse side of the page.]

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn, C.M.G., L.L.D., F.R.S., Director.

MUSEUM AND OFFICE, SUSSEX STREET, OTTAWA.

7 March 1890

My dear Mr. Williams

Mostly by your kind and scanning
of the latest views expressed from a paper read on
May 11-82-83. and the hypothesis of Newcomb
of 53. hypothesis a geology. The principal bond
of difference between the two is very clear a paper
in the handwriting of the latter the Com. of Mass, Boston
has I think published a paper in the American
Geological Survey, "Geology of Canada" which reads
from the original paper to the fact that it is
now going through the press. It may contain some
points of interest, and I will send you a copy
as soon as it is out.

Yours truly
A. R. C. Selwyn

J. W. Dawson
