My Dear Sir

I have rec^d the Mes-
& your kind letter. Thanks for
your courtesy. Your letter is
marked private, but I shall take
the liberty of allowing Mr. Copley
to read it, because it is such a
letter as I am sure he will ap-
preciate. It confirms the opinion
to which I had come, but, with
my limited knowledge of geology,
I was afraid to express an opinion.

If you have not visited
this Pike Peak region you

might find it interesting from
a scientific standpoint. It
certainly is in grandeur of
scenery. We have a carriage
way to the Summit & next
summer shall have a
railway. Should you ever
visit this section of the mountains
I shall be glad to be of service

Yours very truly
