

Letter  
Stewart

May 12<sup>th</sup> 90

(Mad woman)

July 1901  
Pres<sup>nt</sup> of Gill College

Sir

When I wrote to you three weeks ago regarding the 200,000 forgery by the tobacco merchant I could not wait to make a thorough explanation of how the money came to be given to Dalhousie by means I will write you a condensed account of the whole affair. In 1876 letters came to the Co of Bicton, N.S. where I was born of an estate in money which fell to my Grandfather's heirs Alexander Stewart of Mt Thom Bicton N.S. My mother and a sister of hers were then living who were of course the nearest heirs

I and my family lived in  
Massachusetts U.S. (and my <sup>ple</sup> people  
in Pictou paid no attention to  
these letters) My Eldest Son was  
on a visit to Pictou at that time  
also visited P.E. Island from  
there went up the Hudson  
River and then came home  
to Massachusetts he was then  
in his 16<sup>th</sup> year when he returned  
he told me about the letters and  
their purport the next year his  
health failed him which was  
the cause of his first visit, and  
he must go to sea a short trip  
again his trouble was hemiplegia  
(of the nose) He left home I had <sup>son</sup> reason  
to fear that there was trouble in a  
store and warned him, but he  
was not seventeen years old and  
his Father had every thing laid out  
for him and he must obey, and could

think his Father capable of treachery  
(to him) time which reveals all  
things. has also told a sorrowful  
tale of treachery, <sup>perhaps</sup> unparalleled  
in history) one year from the  
time he was taken away I  
saw two lines in the Boston  
Journal to the effect there was  
a claimant to the Stewart  
Estate. I saw at once where  
my boy was and the purpose  
he was put on board the ship  
which took Gen Grant to  
Europe) the very next year the  
Money came to Massachusetts  
in 79 We lived then in the Town  
of Ayer Mass a part of it was  
invested in Gov Bonds half  
Million of said Bonds were  
sold in the Ayer Post Office  
about the last of May 79 My  
Youngest boy was taken sick  
(poisoned) his name Charles  
Sumner his Father and two  
Drs were determined to kill

I and his eldest sister to save  
him a desperate struggle <sup>and</sup>  
the child recovered so as to call  
him well (wearing worn and  
somewhat of my guard) I <sup>at</sup>  
questioning <sup>gave</sup> him  
broath of a chicken which his  
Father purchased <sup>to</sup> the chicken  
had been poisoned for it made  
the child deathly sick but I had  
a great deal of experience with  
sick children and he rallied  
again and but for the act of  
a fiend who entered the <sup>room</sup>  
and I sitting on the bed watche  
with the child some drug <sup>me</sup>  
have <sup>been used which</sup> caused me to loose myself  
for a few minutes I discovered  
what was done when dressing  
him for the grave he died in  
Spasms in a few hours, the very  
next week they deposed me to the  
D. by Court House the Deputy  
Sheriff shewing me his credentials  
chalinging me as a witness, the  
Sheriff was a respectable man, calli  
a christian and professed the

P 9 This Will of my Aunt Nancy  
Stewart of Put Green Pecton N.Y  
is still held by these Socialists  
and by holding this Will which  
never went to Probate. these  
Socialists contest or hold the  
Will of Mrs and Mr A J Stewart  
of New York who remembered  
me so generously in their Wills  
None of any of which they were good  
enough to leave me) I can get  
nothing unless I fall into these  
Socialists hands) which I  
never Will my people support  
the Socialists and I hold <sup>out</sup> against  
them) and until the last breath  
I draw and the last word I speak  
will be against them) Mr and  
Mrs Stewart were relatives on my  
Mothers side and on account  
of my Scientific efforts they rememb<sup>ered</sup>  
me so generously as also did  
the late Lord Bessonsfield  
a relative on my <sup>Lady Bessonsfield</sup> <sup>side</sup>  
of England. but as Socialism  
rules the World) and the World  
wishes to be ruled by Socialism

And this is not all; My Board  
Money was given back to me  
while in the Hospital but as  
these men hold every dollar I was  
not permitted to get into my own  
possession my Brother who  
took me out of the hospital  
kept every dollar put two  
hundred dollars in the name  
of a man and woman in  
Pictou) in one of the Banks here  
two persons who represent some  
two of these Socialists) these two pers<sup>ons</sup>  
died last year) Notice (this claim  
falls to the son who fell heir to his  
Fathers property. And as God kno<sup>ws</sup>  
what I write the life of one Genera<sup>l</sup>  
has very nearly been cut of in this  
way) It is high time if there is  
any good people left to awake  
out of their sleep) I have and hav<sup>ed</sup>  
had but one beacon of hope I see  
this as the Antichrist and after  
reaching the height of his wickedness  
he was only to continue 40 and 2  
with

There is another matter which  
I wish to call the attention  
of the public too this loose  
element <sup>obedient</sup> which I will call  
the inferior Clergy namely  
Layman Salvation <sup>army of silent</sup> evangelists  
& I have discovered them  
to be followers of John Agra<sup>la</sup>  
Antinomians

These derive their name from  
Greek words meaning against  
the Law. in the sixteenth centur<sup>y</sup>  
while Luther was eagerly employe  
in censuring and refuting the  
Popish Doctors who mixed the  
law and Gospel together, and  
represented eternal happiness as  
the fruit of legal obedience a new  
teacher arose whose name was  
John Agricola a native <sup>of</sup> Astibe  
and an eminent Doctor in the  
Lutheran Church. his fame bega<sup>n</sup>  
to spread in the year 1538 when  
from the doctrine of Luther  
now mentioned he took

Occasion to advance <sup>to</sup> sentiments  
which were interpreted in  
such a manner. That his  
followers were distinguished  
by the title of Antinourians  
See History of all Religions  
Please call attentions to this  
Daniel 8th 12.

And an host was given him <sup>inst</sup> age  
the daly sacrapice by means of trans  
gressions and it cast down ~~the~~ <sup>the</sup>  
to the truth to the ground and it  
praticed and prospered Dan. 8th 12  
And as to my claim to Electricity  
as you will learn a claim was  
given this Province no doubt  
in Mumroes Name) when I was  
thirty years of age I suffered <sup>led</sup> unto  
persecution and I know <sup>now</sup> it was by  
this compact by doctering myself and  
children and sufferings great <sup>seemed</sup>  
to come to light. I conceived the idea  
of how the Human System and the <sup>time</sup> revolve  
of the Planets, or the Polar System. were  
on precisely the same principal, from that  
I began to work on the laws of growth  
I discovered what gave to the World  
all the modern improvements in Electricity

known he was an English Spy  
or rather a Spy for the French  
who had their eye on the Throne  
of England and went that no one  
should stand in the way. My  
Grandfather and Grandmother  
fell Victims to his Poisoning  
As you see) this mans sons made  
their Fathers sins to work to their  
advantage, instead as we are  
apt to suppose "it should be their  
disadvantage, It was given <sup>by</sup> free  
and secretly) more like bush money  
than legal transaction) and still  
farther the Aunt I am named  
for was Poisoned by this mans  
son and the Man who was my  
husband whenever they heard she  
made her Will, her Will was  
Stolen and she Poisoned this

Nothing seemed so hard <sup>as</sup> when  
I came to my native place to  
find a meaner form of Social<sup>ism</sup>  
than I ever noticed in the U S  
for example a number of triflers came  
to the custom house in Picton for me  
at least a hint was given me) last  
winter one of my boys sent me Miss  
Tolurage's book Pathway of life, I  
refused to take it out of the Custom house they  
sent it to Ottawa and <sup>then</sup> sent me a card  
that a Social was in Picton for me from

Ottawa, after going all the way, I found it  
was the same Parcel, and it was on its <sup>int</sup>  
way to me by mail, through a forged ack<sup>nowledged</sup>  
I understand that John Stewart of St

he had better turn his attention to some

the whole, for four years I  
was pursued with Poison

I could not give one thought<sup>t</sup>

years imprisoned I never  
knew what joy until I came<sup>ed</sup>  
here three years ago, and being  
separate from my family and  
not permitted to own one cent  
dollar of my own, surrounded  
by the abomination of Romanism

You enquire why I did not  
persevere I had three I may  
say sickly infants to care for  
whenever I seen that my  
Ideas were correct, and  
I really did discover growth  
on the principal of Electricity  
I thought I would wait for  
the time when my children  
would be a little older  
and the older ones able to  
help me some, but through
