

Woodward  
May / 90

New Haven, Conn.

May 13th. 1890.

Sir J. William Dawson, F.R.S.

Dear Sir,

On June 4th. next  
I hope to reach Montreal,  
and should be glad to  
have the pleasure of ex-  
amining some of your  
Carboniferous Vertebrata  
in the McGill College. I  
have just spent a week with

Prof. Newberry & his treasures  
in the Columbic College, and  
am now examining part  
of Prof. Marsh's collection  
here. My address during  
the whole of next week  
will be Hotel Lafayette,  
Philadelphia, and, if con-  
venient, I shall be glad  
if you will kindly send  
me a note thither. I am  
occupied with the 2nd. vol.  
of my B. M. Cat. For. Fishes  
& am especially anxious to

see all types, especially, of  
Palaearctic forms, before its  
completion.

Yours Respectfully,

A. Smith Woodson.
