July 190

11. Grenville Place  
South Kensington  
London

14<sup>th</sup> August 1880

My dear Sir

Professor Bouey has enabled me to write more definitely in reply to your kind letter of the 23<sup>rd</sup> July. We propose getting off at Pirmouski (leaving Liverpool on the 21<sup>st</sup> inst.) and I could then avail myself of your kind hospitality at Metis if convenient to you, if not, Professor Bouey has kindly promised to look after me; we would then go on to Montreal within about a week of our arrival at Metis; this is Professor Bouey's proposal, but of course I should

be ready to fall in with any  
suggestion that you might make.

We have been occupied lately  
in getting together information &  
particulars of Engines & that ~~we~~  
may be of use to us later on.

Believe me

Yours truly

Chas: A. Carno Wilson

Sir William Dawson
