Sir Wm Dawson.

Dear Sir.

Your telegram received also letter. I was disappointed on finding that the part of tree sent was not what you wanted. I at once seen Devine and we got the part above that which was sent and which corresponds with your diagram. This we sent you by freight leaving here on the 14th. I hope this will be found allright. You have now the shale and part of trees from the coal up for about 18" Enclosed you have Mr. Devine's receipt this is for labour only. I made no charge for powder giving him all he wanted Yours very truly P. W. Duffell
