CHELSEA, LONDON,

I cannot find "Scotolithus mirabilis," S.W.  
Linnæus! — He uses "Colithus" — I have not been  
able to find the shells "mirabilis." Can you send  
any reference? — I have got the references  
for Torell, Rouault, Matthew, &c., & will  
use such as are wanted. The last has not yet  
published his Tornichmites & Utriculites in the  
'Trans. Roy. Soc. Canada', that I can find!

I wrote to you about the inconvenience of  
there being two <sup>different</sup> photographs with the same numbers,  
& explained how I proposed to meet the difficulty.  
I dare say that a postcard <sup>or letter</sup> can reach me in time.

Yours very truly  
W. P. Wall
