December 1, 1890.

Sir J. W. Dawson, C. M. G., LL. D., F. R. S.,

Dear Sir:-

The Associations of New York City and Orange, New Jersey, are considering the matter of a course of five lectures on "Topics of the Times."

It is proposed that the lectures be delivered one night in New York, and the night following in Orange. We desire to make them popular and attractive to young men in order to counteract prevailing error.

Neither the Board of Directors of the New York City Association nor of the Orange Association have yet decided in the matter, but I am very desirous of bringing them to a speedy decision. In any event it would be undesirable to have the lectures before the month of March.

Allow me to ask you if you would be willing to lecture on the second subject, and if so what arrangements would be satisfactory to you? Of course the matter of expense is to be taken into consideration.

The topics and proposed speakers are as follows:-

1. Am I to believe the Bible is the Word of God?

Rev. John A. Broadus, D. D., Louisville, Ken.

2. Do Scientific Discoveries contradict Genesis?

Sir J. W. Dawson, C. M. G., LL.D., F. R. S.,
Montreal, Quebec.

3. Did Jesus Christ represent himself to be Son of Man and
Son of God, and if so did he prove it by his life and works?

Prof. L. T. Townsend, Boston, Mass.

4. Are Miracles possible?

Prof. Walpole, New York.

5. Sin,- is there a remedy for it?

Pres. Francis L. Patten, D. D., LL. D.,
Princeton, N. J.

I have also thought that the publication of the lectures in a
popular book form might be exceedingly useful.

As to the phrasing of the topics, it is deemed wise to have
them as free from theological terminology as possible.

Hoping that you may be able to send a favorable response, I am

Very truly yours,

R. M. B. B. B.
General Secretary.
