

To Hodder  
of Lowell

McGill College.

Montreal.

June 23/92

Dear Mr Hodder,

I have now  
arrived near the close  
of my series' work,  
and hope to leave in  
a few days for my  
escape at Little Metes,  
where I shall hope to  
put in some work on  
"Latent Prints" which  
have been dragging slowly,  
more especially as I  
have found it very

American Association,  
Field work re, for  
this present year.

I shall hope  
to see a  
copy of the new  
edition of "Modern  
Science in Bible Lands"  
which I hope will  
be successful. Please  
send a copy by book  
post when out.  
I do not know

of you will be in Canada  
this year; but from  
this time I shall  
expect Sept 1st be  
in Montreal for a  
few days at a  
time, so may see you.

Sincerely yours

J. M. Dawson

With kindest  
regards to the  
of Geol & Water

copy & pause at times  
to prepare special papers  
on various points, as  
Pliocene Geology, Coal  
Plants, &c, that rose  
up before me as the  
work went on.

I hope however  
to report something  
satisfactory by September;  
but to secure this  
must give up hope  
of British Association
