Importers of Dry Goods

Montreal 6th Sept 1892

To Sir Wm Dawson,
City

Dear Sir,

At a meeting of the
Caledonian Literary Society's Committee it
was resolved to ask you to deliver a lecture
some time this coming winter, having special
reference to "The Geology of Scotland", and
being Chairman of that Committee I was
deputed to confer with you on the subject:
fearing to call on you inopportune I take
the liberty of writing, but shall be pleased
to wait on you & give any explanations
you may desire.

The object of the Society is to cultivate
a knowledge and a love for Scotland —
its history, literature and institutions, and
6 or 7 Lectures are delivered every winter
on these subjects.

In the hope that your other engage-
ments may not interfere with you granting
this favor, I am, Sir

Yours most respectfully

Robt Reid
