LONDON AND 112 FOURTH AVENUE,

NEW YORK Nov. 2nd 1892

Dear Sir:

We take pleasure in
mailing you herewith a specimen
copy of Sir John Lubbock's new
book on "The Beauties of Nature
and the Wonders of the World."

His earlier works "The Pleasures
of Life," etc. are very popular
and we think this admirably
adapted to use in school Lib-
raries or as collateral reading
for University Extension
in Natural Science, etc.

Hoping that you may be able
to recommend it to the Prof-
essor in charge of the Exten-
sion work connected with
your University, we remain

Very truly yours,

Macmillan & Co.

M.

Sir Wm Dawson.
