My dear Sir

I am glad to be, as a position to
state that the Redda has just been
examining the specimens of *Ptilophyta*,
in the museum of the Perth. association,
which he had. named *P. No. 1*,
and has frankly admitted his error.

There are two specimens of the same you
recognised as *P. princeps* when the
specimens were before you. This seems
in every way satisfactory.

Yours truly

James Reid.

P.S. It is pretty certain that
Kidston has seen the first Parker paper,
but I sincerely think he has seen this
second.
