Prof. J. W. Dawson

Dear Sir,

Having

frequently seen your name
books so highly commended
on the subject of reconciling
the Bible with science, being
myself much interested &
troubled on the subject, I
take the liberty of addressing
you & asking for advice.

How surprised from knowing as no man
can understand who has not passed through
a like agony of trial. My faith being
shaken or wretched in the Bible everything
else seems to waver & a fall. I want to
know the truth walking out the truth,
was prepared to read impartially - His
fallen the truth otherwise I lead me. Can
you not recommend one of yr. Books

What is the best book that
I could read giving the
results of the
latest geological research?
& its bearings on the Bible
narrative? I cannot
afford to get an expensive
book.

Have you ever read
two books by Dr. Saml. Kimms
"Harmony of the Bible with
Science" & "Graves in
the Rock"? What do you think
of them? Are they scientific
up to date?

(the one you ^{think} ^{best} think wd. ^{the best}
best suit my needs) or
some book that
would suit me? I should
esteem it a favor indeed,
if you could give me
some light.

Is Rawlingson's "Aids to Faith"
useful now or is it behind
the times?

Hoping that you may be
able to comply with my request
I am

Faithfully yrs

Wm. J. Morton

REV. W. J. MORTON
