Dear Sir *Wm Dawson,*

We have pleasure
in sending you herewith
revised up to page 496
of "Salient Points."

We were very anxious
to meet you by printing
all the M.S. received,
although you left one
or two Chapters optional,
and in consequence the
number of pages runs out
to 572, which still be

7
further increased by the
illustrations printed separately,
and, under the circumstances,
we regret there is no
space for further matter.
We therefore return the
M.S. of the Appendix herewith

Yours very truly
Hadden Shugart

Sir J. MacLaurin.
