

London, February 22nd 1894

Belufoante

GEOLOGICAL SOCIETY,

BURLINGTON HOUSE, W.

Dear Sir

Yours of Feby 6th reached my hands yesterday, and I am glad to say that the corrections come in good time for the Abstract. The paper was read yesterday evening, and the Council will decide on it a fortnight hence. I have, however, meanwhile received, after all, drawings for the plate from Dr. Wheelton Hind, and we are setting the artist to work at it in the full expectation that the Council will grant it. I infer from your letter that if, I hope a remote if, they do not grant the plate, you will not be disinclined to bear the cost incurred. I had already

written to Dr. Wheelton Hind that
I should take the risk myself,
and pay the ^{artist's} fee out of my own
pocket, rather than lose any
more time.

Yours very faithfully
L. Belinfante
