To. Sir W. J.
Dawson -

Sir

I beg to send you a copy of my
late son Prince Charles of
Mantua's Work

"Visions of the Interior of
the Earth"

It pleased God to reveal
these wonders to my son
during many years, but he
did not live to publish them.
I have felt it to be my solemn
duty to do so & I am now

desirous of making the
Work known to my Fellow
Christians.

There is
much in it which throws
great light on the Scriptures
& explains many difficulties
I need not tell you
how serious are the days
in which we live; the
falling away of many
from the truth the
baselessness of much so
-called scientific conclusions
and the terrible effect
on the minds of the unthink
-ing

Masses who are glad to
shelter themselves under
the supposed leaders of
Modern thought; though
these ideas are not new
& existed long — long
before the present day.

Hoping you will
be able to give attention
to the Book I have
sent.

Remain Sir

Respectfully Yours.
Ann of Mantua & Montferrat
