

Provincetown Monday

Dear Sir W. / 94

I have had your ^{MS} letter written & wish you to revise it, Return in the enclosed envelope flat.

I have read ^{all} your ^{works} ^{very} ^{carefully} ^{for} ^{some} ^{months} ^{past}, & do you know I came to some

such conclusion as you have with reference to the formation of course I could not put my vague thought into sufficient

definite language ^{geological} ^{map} ^{I propose to get up a small geological map of the Cape Cod} ^{in the survey the} ^{Can you tell me where}

Mastodon giganteus? I was

found in Cape Cod? The standard

Geology or other works in my library do not tell me.

By the way, I have had pasted in your Ac. Sect. an excellent report of the

lecture you delivered
some years ago in New York on
the Carboniferous Flora.
It is the most graphic I have
ever read on the subject.
But it does not appear
included in your published
essays.

Yours sincerely
Geo. Bowring
