October 26,

1894

Sir William Dawson,

293 University St.,

C I T Y.

Dear Sir;-

In reply to your post card of this date re Grates in your hall and drawing-room, we very much regret to learn that you have had such trouble with these goods. They were all in good condition and properly working when they left our place and we cannot understand how this trouble has arisen. When you called upon us recently our foreman saw Mr. Date, who fixed them, and he promised to attend to it at once and we fully thought the matter would be satisfactorily settled. However, our Mr. Parkes who has only just returned from a business trip West will call upon you this noon and see what is the cause of the trouble.

Again expressing our regret. We remain

Yours truly,

Webster Bros & Parkes
