

St. John M.D.
30 Jan. 1895

Dear Sir Wm,

I have gone through the proof for the correction of St. John items, without checking numbers and dates. This palaeogeography of Palaeozoic Air Breathers shows quite a respectable length, and will be very useful to students for reference.

I will be able to send you our bulletin shortly

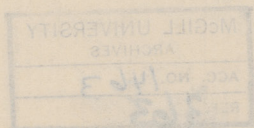

It contains several artists
of local interest, chiefly
geological. You will notice
some new names among the
contributors. We still keep
up the work in a small
way, but are somewhat
hampered for want of funds.

It was with great re-
gret that I learned from
you of Eric's death; it
must be a sad blow to
you all. Was it the re-
sult of ~~his~~ his illness last
year? Please give to
his mother and Lady Dawson

the expression of my warmest
sympathy

Hoping you will find
the revision of the proof
all right I remain

Yours sincerely
G. F. Matthews
