Dear Dr. Robertson Nicoll,

I now send the
short and concluding article
on "The Cursing of the Ground" &c.
You will thus have the ad-
vantage of having the whole
before you, and may be
able with greater facility to
send me proofs. You will
note that in the last four
words I use the old reading
of the conclusion of the Apocrypha,
not that of the Revised. It is
evidently the better in point of
fulfillment of meaning, and must
I think have been the original.

Since sending you the second
article, my attention has been
called to the count as to the
"Babylonian element" in Genesis on the
part of Sayce and others, and its

Influence in England. I have
therefore added a note at the
this, referring there curious in the
matter to Maspin's great book,
edited by Gaye himself; in evidence
of the true state of the matter.

With kind regards

Yours truly
