

Carnethy

Mr J. Mr British Museum

20 May 1895

Dear Sir William

My young friend
Mr Francis Buscarlet will
present this to you. I have
asked him to call on
you, because I know if you
can help a young man
looking for work you will
gladly do it.

His father was my fellow
student in Edinburgh, and
we have continued fast
friends since. He is a minister
of the Free Church of Scotland.

Francis was educated
at Cooper's Hill as an

engineer. He has since held an appointment in India. He is an able engineer, and has most satisfactory testimonials as to his talents from his former employer and his teachers - He is an earnest Christian, and has had to suffer for his religion. He would like to find professional employment in Canada - but if he fails in this he will join his brother who is farming in Manitoba.

I have perfect confidence in Mr. Muscardet that

he will fill with credit
any position he may
occupy.

I am faithfully yours,

William Lanuttes

Mr. F. C. Boscawell.
