Sir J. Wm. Dawson., LL.D., F.R.S., F.G.S., C.M.G.

293 University street,

C i t y .

My dear sir-,

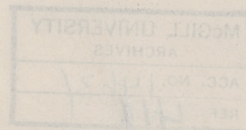

Permit me to express to you my deep sense of gratitude for the very great assistance you have so kindly given to me in furthering the object I have in view, the developement of those vast deposits of coal in the County of Albert, N. B. I shall at once obtain your reports referred to.

I remain very sincerely

Your most obedient and grateful servant

J. H. Harding.

P. S.- Since writing the above I have received a letter from W. F. Wortman, stating as follows, " We have finished the survey of the road to Salsbury, and while making the survey Steves and the surveyor say that they discovered Albertite. " Steves is quite wild over the find! This confirms the views expressed in your letter to me of yesterday with regard to further discovery of the Albertite.
