

Montreal
June 19/95-

Dear Dr. Bennett,

I have now,
in accordance with
the desire of Council,
made a fair copy
of my little paper
on Western plants,
and Mr. Lambie
is preparing a
few outline drawings
which can be done

by Buland's cheap
photos. Please if
you have no ob-
jection, if you
are not in immediate
want of my MS,
I shall take it
to L. Metis for a
few finishing touches,
and shall send
it to you early
in July. Please

Browned off
The Commons will
have mercy on
you in this hot
weather, which is
very remarkable
for the season,

Truly yours
J. M. Dawson

Dear Sir W.

Strange that you
like to have
the Pitt by middle
of July. I wish I was going
to the table of the House
at the House
Always yours sincerely
J. M. Dawson
