My dear Sir W. Dawson,

I was sorry not to have  
seen you once more - but I had to  
leave Friday instead of Saturday.

On board the boat *St. de Sola*  
got interested in you, on Deluge -  
he seems to have much admiration  
for Father Ignatius who attacked  
powerfully the reform of Jesus for deen  
drifting away from the Scriptures  
& had corresponded with him - but I could  
get no direct conversation about our Lord  
tho' he listened to rather long conversation  
I had with another Xian, as to what  
delirance consist in & the the teaching  
of Roman's v. 12 to VIII -

I had the pleasure of making the acquaintance of a Mr. Finlay - on board - but I had to measure my conversation having only just come out of Dr. Nichol's hands from an attack of bronchitis, that only left me completely on the third day.

Trusting the fulness that abides in our Head may be drawn upon <sup>the</sup> faith of the many members on earth for their sore need so the glory may be given to Him who brought to us Grace & Truth - also that during the little while we are waiting each of us may kept abiding in Him -

I trust Lady Dawson yourself & household may be kept with the joy ever increasing as that day approaches

Yours affectionately in Him

Hatter Turner
