Sir W^m Dawson

"Dear Sir"

Devine has
taken out the two trees and
there was nothing of any
value in either -

The tree at McCussons brook
was very large over three feet
in diam^{er} at the base, the one above
the point was about 14" both
quite barren.

Devine had 6 days
a ³2.00 and a man 3 days a ⁵1.25
Total \$ $15 \frac{75}{100}$ - He is going up
the shore by Little River to
get some of the shells you

You wished from that section.
I heard from Mr. Lorry a few
days ago, and he is going to
bring the stone with him on
his next visit to Joggins and
will mail it from there to you.

We are having very fine
weather here, it has been
quite dry ever since you left.

I hope you have not suffered
any inconvenience from your
visit.

With best respects
I remain yours truly
P. W. Haughton
