

Mass.

Wm. Oct., 1845

Dear Sir William,

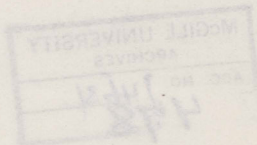

It appears from a letter  
of Mr. Boucher de la Pêrrière  
Esq. whom I had written on  
the subject of having the new  
Book brought before the Catholic  
Committee that they had not yet  
well been recommended for  
the Protestant Committee  
teachers use. Will you  
kindly continue since it  
as the chief argument

in favour of having it burnt  
before the Calhoun teachers  
is taken away. It  
is a little disheartening  
to me that a really good  
book - the only one produced  
in this country - as the  
press unanimously agrees,  
should require so much  
pushing. The pecuniary  
results are not worrying me  
at all - as the second

edition is in its way; but  
my object throughout has  
been simply to educate  
the youth in our institutions  
of Gasquet.

The printers write me  
that you have your proofs.  
The illustrations have been looked  
after by Dr. E. Dawson. The  
keys you will look well to. I am  
having a next cover with a little on it.  
Yours Sincerely,  
W. Bowring
