Dear Sir:

I am now teaching a class in Geology in the High school of this city and would like very much to have a sample of "Froon canadense" for illustration. I intended to write this to Prof. J. W. Dawson but not knowing whether he were at the University or not I take the liberty to apply to you.

If you can favor me I will pay for either mail or express.

It is my policy to teach the subject rather than the book and would be much pleased if you could assist me. A sample by mail will be large enough for my use.

Respectfully yours,

C. A. Whittemore,
